Undated. Phonograph (NS-Undated-004)

Tracings follow other notes and drawings.

T. A. EDISON, Menlo Park, N. J., 187

Kruesi put a bracket on Phonautograph like this turn the cylinder slow and turn the handle fast.

It is a shaft A with slot in and wheel B has a feather in to slide in same & this wheel is belted to the large wheel. Wheel B must be very loose on shaft A
